February 2, 1995

Mr. Phillip Dyck
BRAC Environmental Coordinator
Naval Training Center - Environmental Office
33502 Decatur Road, Suite 120
San Diego, California 92133-5000

Dear Mr. Dyck:

FINAL PRELIMINARY ASSESSMENT REPORT, NAVAL TRAINING CENTER, SITES 4, 5, AND 6, NOVEMBER, 1994

The Department of Toxic Substances Control (Department) has completed its review of the subject document received by this office on December 7, 1994. Based on this review, the Department concurs with the report but would like the following comments re-addressed.

Department comments number fifteen and sixteen refer to use of the word "speculate" and "speculative". See page 7-1, subsections 7.1.1 and 7.1.2 of the report. Based on the additional information that the Navy has obtained regarding Site 4, revised language can be used in place of these words so that a stronger statement can be conveyed to the reader.

Regarding the PCB spill at Site 4, your responses state that it will be addressed during an independent site assessment. Has this assessment been conducted? Please provide this information to the Department.

If you should have any questions regarding this matter, please call me at (310) 590-5563.

Sincerely,

Alice Gimeno
Remedial Project Manager
Base Closure Unit, Region 4
Office of Military Facilities
